WATER COMMISSIONERS' REPORT

Your Commissioners submit the following report for the year 1962.

Like previous years we have been plagued with service leaks, at times it was hard to keep up with them, and cost a lot of money.

We believed a year ago the solution was to reduce the pressure and \$15,000 was appropriated to construct a relay station on upper Silver St. which would reduce the pressure in the lower part of the town where most of the trouble was from 120 lbs. pressure to 60 lbs.

After considerable engineering work and consultation with other water departments, we found the relay station to be automatic would be quite a complicated affair and might not be the solution of our troubles.

Anderson & Nichols, consulting engineers of Concord sent one of their men over and after studying the situation carefully decided it was not the pressure causing us the trouble as other water systems have as much and some more pressure, were not having our troubles. Sections of pipe and copper tubing that had failed were taken to Concord and studied. It was their belief the nature of the water was causing the trouble, and our small treatment equipment was way too small for the job. They recommended instead of the small pump we have and ten gal. crock we get a three hundred gal. tank and pump in proportion and treat all the water we pump. We are now awaiting the arrival of a representative for a price on this equipment.

Respectfully submitted,

Wilfred L. Dupuis
Stanley C. Tanner

REPORT of CHIEF ENGINEER MILTON FIRE DEPT.

The department answered the following calls the past year:

- 5 Buildings
- 7 Grass and brush
- 3 Chimney
- 2 Automobiles
- 6 Stand by out of town
- 2 Dump

A new pump was installed on the tank truck, after the old one was found to be beyond repair. We had a very good year fire-wise. I would like at this time to thank all who helped us in any way the past year.

FOREST FIRES

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be place cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man-caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control - pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is a potential danger when matches fall into the hands of children. It is never too early for parents to install in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had 1 fire.

We burned 1/2 acres.

Permits issued. 30

REPORT
OF
SUPERINTENDENT OF SCHOOLS

To School Board and Citizens of Milton:

The "Minimum Standards and Recommended Practices for New Hampshire High Schools, Grades 9-12" was adopted by the New Hampshire State Board of Education on June 18, 1962, effective September, 1963.

If we recognize that the school must meet the needs of many individuals with widely varying skills, capabilities, and interests, then, we must conclude that this can be done only when the school provides, through its program, its services, and its staff, sufficient diversity to permit secondary school education to have real meaning for each boy and girl.

The provisions of RSA 194:23,23-a, 23-b, 23-c provides the authority to the state board of education for approval of High Schools and Comprehensive High Schools.

We are now an approved comprehensive high school and it is my recommendation that we pursue this direction of approval, although, the school district will need to make some capital expenditures in order to meet fully all of the standards.

Basically, an approved high school offers a one track system of college preparatory courses with a minimum program of 20 units of which 17 units must be offered in any given school year. The distribution of subjects must meet state board approval.

A comprehensive high school must offer all of the learning opportunities of a "high school", plus 10 Units of General Subjects, 14 Units in the Practical Arts and 3 Units in the Fine Arts. An approved comprehensive high school shall provide an organized program of guidance for all students.

Both types of schools must have a qualified school-librarian or teacher-librarian and must provide a minimum of one period daily of library services for each 100 pupils, utilizing a qualified staff member.

It must be emphasized that 75 per cent of the students in this community do not plan to enter post secondary schools and for them the education received through high school is terminal. Consequently, it is necessary that we offer the diversified program which we are now offering.

Although not directly related to the Minimum Standards, the Interim Commission Report on Education to the General Court will have far-reaching effects on the educational horizon of the state of New Hampshire.

On November 30, 1962, Mr. Roland L. Schoepf, of the Division of Instruction visited Nute High School. The purpose of the visit was to clarify what action, if any, is necessary to qualify Nute High School as an approved comprehensive under the new minimum standards which go into effect in September, 1963. A Summary of action necessary follows:

1. There must be one more college preparatory academic course offering.
2. At least four different kinds of industrial arts experiences must be made available with appropriate facilities.
3. At least one offering for credit in the visual arts, taught by a certified instructor, must be available each year.
4. For a school of this size, the services of a teacher-counselor must be available for three periods daily.
5. Pupil records must be stored in a fire resistant file or safe. Additional files are necessary in order to accommodate such records.
6. Provision must be made for more experience in the use of business machines, such as dictating equipment.
7. The services of a teacher-librarian, one with a minimum of six semester hours in library science, must be available for two periods a day. There is a question about the present library management and this will be examined, using school library standards.

Mr. Paul Quimby, Director-Secondary School Services, when asked to indicate what penalties would result from

non-compliance with minimum standards gave the following answer: "You will note in RSA 194:23-d that "A high school or comprehensive high must be approved by the State Board of Education in order to qualify the district maintaining such school to receive any form of financial state aid to education . . ." in other words, it is clear that a district would forfeit foundation aid, building aid, NDEA funds, aid which is channeled through state departments for home economics and certain other vocational courses, etc.

Finally, to meet the minimum requirements, for a comprehensive high school, it would be necessary to add 1 and 2/5ths teacher. This is a minimum investment for the maximum services that your children would receive. Your school board has budgeted for a comprehensive high school and you are urged to support them at the annual district meeting.

The untimely death of Principal John B. Folsom on September 5, 1962, was a great loss to this community. Mr. Folsom served the Milton Schools since September, 1956. The district was fortunate in finding an able replacement in Principal John R. Callahan.

In conclusion, I should like to express my appreciation for the cooperation given me during the year by the citizens, school board, pupils and teachers of Milton.

PRINCIPAL'S REPORT MILTON PUBLIC SCHOOLS

The opening day of school was September 5, 1962; a day marred by the sudden, untimely death of John B. Folsom, Principal. Miss Marjorie Goodwin was appointed acting principal. On October 1, 1962, John Callahan became principal of the Milton Public Schools.

The teaching staff has remained relatively stable. There were no changes in personnel at the Milton Mills School. In the Milton Elementary School, Mrs. Helen Abbott moved from Grade 5 to Grade 4; Mrs. Marion Stanley moved from Grade 6 to Grade 5, and Mr. Harold Sanborn was hired to teach Grade 6.

In the High School, Miss Helen Tambouris was hired to replace Mr. Regan as Social Studies teacher in Grades 7 through 9. Mr. Regan moved up to the position left vacant by the resignation of Mr. Ralph Leib. Mr. David Baker was hired to fill the vacancy left by Mr. Nelson Dionne. Mrs. Thelma J. Damon was hired to fill the vacancy caused by the departure of Mr. Victor Baghdadi, (Mrs. Damon has since resigned and she has been replaced by Mrs. Paulette Alden). Mrs. Elizabeth Watman was hired as a full time English teacher to handle the two sections of English required in Grades 9 and 10 due to the increased enrollment.

The staff has been adequate to handle the teaching load this year, but increased enrollment plus new state regulations relative to the certification of Nute High School as a comprehensive High School will require the addition of a new teacher for the school year 1963-64. A full time music instructor will be needed next year as Farmington has voted to hire a full time teacher and Milton has no opportunity to share a teacher. State certification requirements necessitate the offering of art on a part time basis. It is hoped that this person will be shared with Farmington.

The curriculum has changed only slightly. English Composition was added in September 1962 to help students who were college bound. In 1962-63, all sections of English except the 12th Grade were divided into two parts. In 1963-64, all English classes will have two sections due to increased enrollment. In line with the State Department of Education's recommendation of offering four years of one language rather than two or three years of two languages, French IV will be offered. To become certified as a comprehensive school next year, three periods of guidance must be offered at Nute High School.

In the Elementary School, the major change in curriculum will be in the math program. Contrary to popular belief, there is nothing new in arithmetic; the students are still adding, subtracting, multiplying and dividing. There are new and better ways of teaching arithmetic. We are hoping to adopt one of the new methods.

Along with the arithmetic in the Elementary Schools, more emphasis is being placed on reading and we are in hopes of adopting a two track system for students in the Elementary School to challenge all the students to improve in their reading skills.

The enrollment continues to rise. Next year's predicted enrollment is 472 compared to 432 this year. Additional tuition students from surrounding communities account for a major part of the increase.

There were a few improvements to the school plants over the summer. The outside of the school building was painted at Milton Mills. A new roof was put on the Elementary Building. Hot top was applied around the elementary school to keep sand from being tracked into the building. At Nute High School, the boiler that had broken down in the winter was repaired and completely overhauled during the summer. The corridors and the cafeteria were painted. A nurse's room and an art room were created out of the home economics room. The gymnasium floor was not much of a problem this year; three small areas were reconstructed

During the basketball season, the floor was in good condition.

To the School Board, the Superintendent, the Parent Teachers Association, the Teneriffe Sports Club, the Boosters Club, all the parents and friends of Milton Public Schools, and the teachers who contributed to make the schools and their affiliated programs a success, thank you.

John Callahan, Principal

REPORT OF THE SCHOOL NURSE

To the School Board, Superintendent of Schools, and the Citizens of Milton:

I hereby submit my fourth annual report as school nurse.

There have been few changes made in the routine health program this year. The program includes checking vision, teeth, heights, weights, and scalps in grades 1 - 12 in Milton and grades 1 - 6 in Milton Mills. The children in grades 1-3-5-7-9-11 and all who participate in sports are given a physical examination by the school physician, Dr. George Quinn, of Farmington, N.H. Any defects found were reported to the parent and advised to consult their family physician. The children in grades 1-3-5 in Milton Mills were also examined.

The children in grades 1-3-5-7-9-11 in Milton and Milton Mills were given a hearing test with the Maico Audiometer. Heads are inspected several times during the year. This is done to prevent the spread of any scalp infection or pediculosis (head lice). We have very few of such cases.

I made appointments and transported three children to the Orthopedic and Child Guidance Clinics, one in Rochester and three in Dover. Four Polio Clinics were held in the

Milton Elementary School. These clinics were well attended. Both the Oral and the Salk vaccine were given to all age groups. We were unable to have our Dental Clinic this year as Dr. Morrison was ill and unable to do the work, much to his regret.

Orientation Day was held May 17, with twenty-five boys and girls attending, all as cute as they could be. They were weighed, measured, their eyes and teeth checked. It really was quite a day for them and a very pleasant one for me.

There have been many cases of virus infections during the fall and winter months. Seventy-three cases of Mumps were reported and a few of the other communicable diseases such as measles etc.

Following is the statistical report of the health work for 1961 - 62 school year.

Pupils examined by physician	238
Pupils inspected by nurse	572.
Vision test	482
Hearing test	194
Heights and weights	433
Teeth	433
First - aid	1257
Blood pressure taken (requested by school Dr.)	1
Visits to homes	167
Visits to schools (3)	447
Number of children taken home (sick or injured)	65

This includes going to West Milton, Milton Mills, Wakefield, Sanbornville as well as in the village.

Number taken to Dr. office	5
Number taken to Optometrist in Rochester from Milton Mills,	1

I attended three Nurses Workshops during the year, one in Manchesser, two in Concord. I also attended three evening meetings which were held in Portsmouth.

I am very grateful for having my own room at the High

School this year. To me it is a much better arrangement for all concerned, this means teachers, students and myself.

I would like to thank the Woman's Club of Milton for sponsoring the Dental Clinic, the work will be done this year. I would also like to thank the P.T.A. for the money they gave me to buy some of the furnishings I needed for my room at the High School.

I would like to say THANK YOU to the School Board, Superintendent Martineau, our Principal Mr. Callahan, teachers and other members of the staff as well as parents for their close cooperation. It has been a pleasure working with and for you.
